In all new residential subdivisions, the City shall require that a sufficient portion of such land be set aside and dedicated to the public for parks, playgrounds or other public use exclusive of property dedicated for streets and other public ways. It shall be presumed that a sufficient amount of land has been dedicated for parks and playgrounds for the present and future residents of the subdivision, if the subdivider dedicates at least 1/25 of an acre per dwelling unit that can be constructed in the subdivision. The City upon consideration of the particular type of development proposed in the subdivision may require larger or lesser amounts of land be dedicated if the City determines that the present and future residents of the subdivision would require greater or lesser amounts of land for such purposes. The City shall determine whether cash in lieu of land dedication is more appropriate.
